Human Score

5.52

Human's evaluation reason: Although it conforms to the prompt description, there are obvious defects in the generated human body (hands, legs, etc.). In addition, the consistency between the human and the shoes is not well maintained.

Text Prompt: The woman from [image2] sitting on a chair featuring the silhouette and structure of [image3], wearing [image1] sneakers.

Human Score

6.14

Human's evaluation reason: It matches the text prompt description. However, the generated image clearly has an AIGC quality, with distorted faces, unrealistic background grass, and a lack of consistency in the representation of the figures.

Text Prompt: Group of women from [image1] walking in [image3] landscape with [image2] zebras grazing nearby.
